Simple probability - spinners
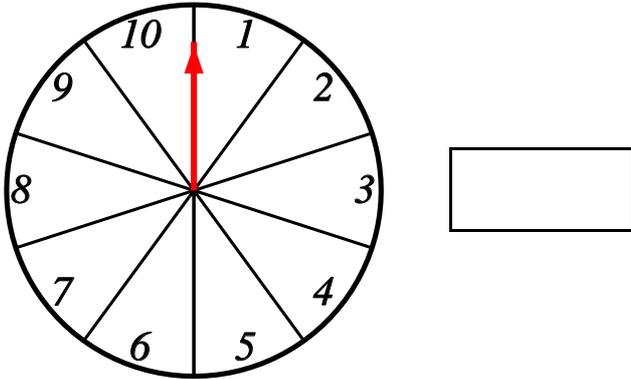

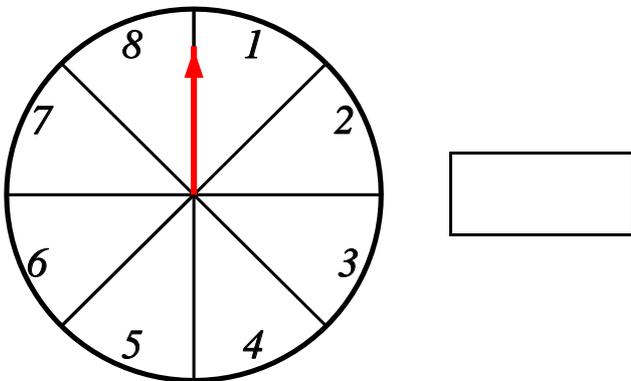

Name: Class: Date:

Mark	/ 6	%

1) Find the probability that for a random spin of the spinner, the arrow points to 6.   [1]

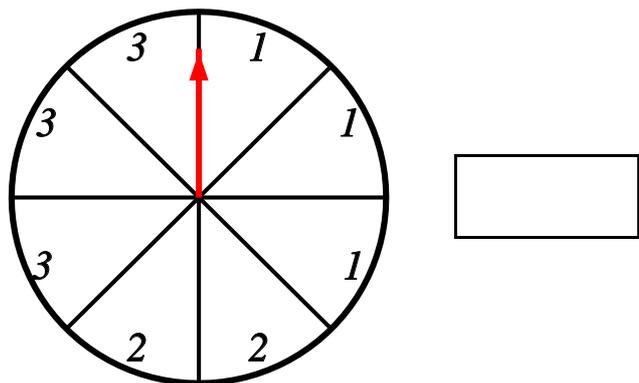

2) Find the probability that for a random spin of the spinner, the arrow points to 7.   [1]
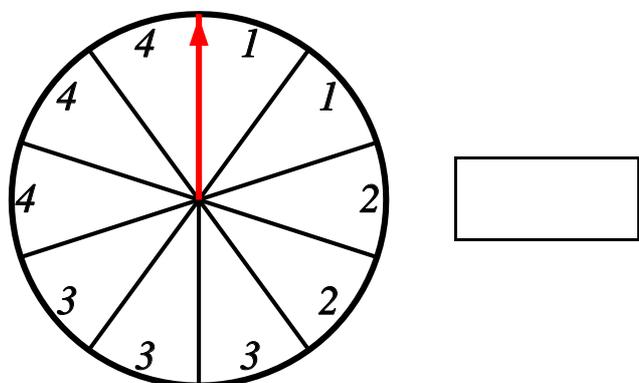

3) Find the probability that for a random spin of the spinner, the arrow points to 1. [1]

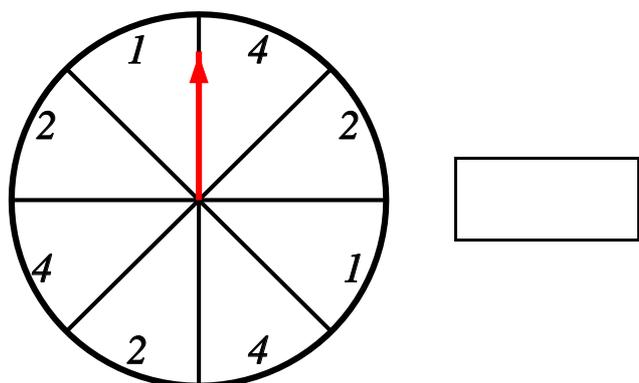

4) Find the probability that for a random spin of the spinner, the arrow points to 4. [1]

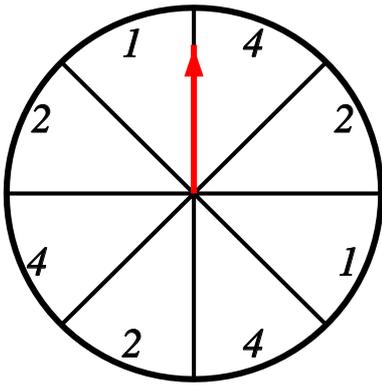

5) Find the probability that for a random spin of the spinner, the arrow points to 2. [1]

6) Find the probability that for a random spin of the spinner, the arrow points to 4. [1]

Solutions for the assessment Simple probability - spinners

1) $\frac{1}{10}$

2) $\frac{1}{8}$

3) $\frac{3}{8}$

4) $\frac{3}{10}$

5) $\frac{3}{8}$

6) $\frac{3}{8}$
